Hemant Singh

Engineering Manager @ Tata CLiQ | Mobile App Development
Gurugram, Haryana, India

Summary

Results-driven iOS Developer with over 9 years of experience in mobile application development. Proven track record in improving app performance and managing releases. Demonstrated Android and iOS development expertise, particularly in transforming legacy code to modern architectures—strong engineering background with a B.E. in Computer Science.

Experience

Tata CLiQ

2 years 6 months

Engineering Manager

April 2024 - Present (1 year 4 months)

- Spearheaded the Henosis project, successfully merging codebases of three iOS apps to enhance reusability, reduce duplication, and accelerate time-to-market for new features.
- Built and scaled the entire CI/CD pipeline using GitHub Actions, replacing Bitrise to enable faster, more reliable, and transparent release workflows.
- Achieved 99.9% Crash-Free Users, driving stability through proactive crash triaging, tooling improvements, and performance regressions analysis.
- Resolved critical performance bottlenecks to deliver a smoother and more responsive app experience across all user segments.
- Led the migration of the analytics layer from CleverTap to MoEngage, with a future-proof design allowing seamless vendor transitions when needed.
- Developed internal automated workflows to enhance developer productivity, reduce manual errors, and speed up feature delivery.
- Drive cross-functional collaboration across QA, Product, and Design teams to ensure smooth, timely, and high-quality releases.
- Mentor and grow team members through regular feedback, pairing sessions, and career development support.
- Own stakeholder communication for all iOS efforts, ensuring alignment on timelines, technical feasibility, and product vision.

Lead iOS Engineer

February 2023 - March 2024 (1 year 2 months)

New Delhi, Delhi, India

OLX Group

SDE II

July 2022 - February 2023 (8 months)

Gurugram, Haryana, India

- Developed Integration Testing Framework for iOS App using XCUITest and Wiremock.
- Developed Car Reserve Feature using BFF

Tokopedia

Senior Software Engineer

May 2021 - July 2022 (1 year 3 months)

Noida, Uttar Pradesh, India

- Handled the whole Discovery module of the app and collaborated with product and other platforms team to build components to increase product discoverability
- Developed Shared Shopping experience for the users using Apple's Group Activity Framework
- Developed an executive dashboard showing health of critical modules of the app using NRQL and React JS
- Improved Unit test coverage for the module assigned
- Involved in the Code review process for the whole team

Nagarro

1 year 11 months

Associate Staff Engineer

January 2021 - May 2021 (5 months)

Gurugram, Haryana, India

- Developed features like registration and KYC for the onboarding module of the banking app
- Developed api based configurable forms using Eureka
- Improved UT coverage for the module

Senior Engineer

July 2019 - December 2020 (1 year 6 months)

Gurgaon, India

- Developed an iOS enterprise application for staffers, team leaders, and consultants to browse projects and people to staff for BCG.

- Developed a node.js proxy API for an on-premise resource using the site to site VPN connection on AWS

Zillious Solutions

Technical Associate

March 2017 - July 2019 (2 years 5 months)

New Delhi Area, India

- Developed the iOS Application from scratch using Swift, with support for multiple clients like ThomasCook, SOTC etcetera with single codebase.
- Developed the Progressive Web Application using React

Hatchitup

Mobile Developer

May 2016 - February 2017 (10 months)

New Delhi Area, India

- Develop apps for Android and iOS
- Implement Continuous Integration and Continuous Delivery (CI-CD)
- Implemented chat feature using XMPP

Education

Nagpur University

Bachelor of Engineering (B.E.), Computer Science · (2011 - 2015)

Rashtriya Military School Chail

High School, Physical Sciences · (2004 - 2011)
